Static Control Products and Supplies for ESD Protection

No Visitors? No Problem!

Desco Offers Virtual Services to Help Support Your ESD Program
Contact Us for Virtual Support - Service@Desco.com

Services offered include:

■ Virtual ESD Surveys

- Desco will prearrange to deliver survey kit and organize virtual meeting to help you use the equipment and perform a survey.
- Consider an ESD Survey to prepare for an upcoming audit (ISO, customer, etc), appeal to new customers that require an ESD Control Plan, or move towards S20.20 certification.

■ Virtual ESD Assessments

- Generally one or two areas or topics are covered in a Desco ESD Assessment

■ Virtual ESD Training – tailored to your ESD Program

- Live demos included

■ Virtual Product Tutorials – how to properly use Desco auditing equipment

- Surface Resistance Meter
- Field meter
- Ionization Test Equipment

■ Virtual Product Demonstrations

- Continuous monitors
 - o Including new Full Time Continuous Monitor with Controller
- Wrist strap/footwear testers
 - o Includes new “no contact” testers
- Smocks
 - o New “hands free” single wire and dual wire products

Common Questions

Is pink poly foam ESD safe?
Question provided by Desco FAQ database

- Must be $< 1 \times 10^9$ if used as part of ground path - worksurfaces, carts trays, shelving
- Must generate less than 125 volts if placed within 1" of ESD Susceptible
- Must generate less than 2,000 volts if placed within 12" of ESD Susceptible
